PROCEDURAL

Approval of a Development Plan must be granted if the submitted plan demonstrates compliance with the terms of the underlying zoning district, subdivision control ordinance and/or applicable PUD District Ordinance, any variances associated with the site, and any commitments associated with the site.

PROJECT HISTORY

- On May 10, 2016, the Board of Zoning Appeals approved a Variance of Standard (1605-VS-08) for the reduction in Architectural Standards with the condition that the existing mound and evergreen trees along the western property line would remain.
- On June 6, 2016, the Plan Commission approved the detailed development plan (1604-DDP-11) for the Property to allow for the construction of the proposed building.
- On November 1, 2016, the Board of Zoning Appeals approved a modification (1611-VS-15) to the conditions of the previously approved variance. The modified condition now only requires the existing evergreen trees be preserved.
- The petitioner is now requesting approval of a landscape plan that modifies the previously approved mound height to a height consistent with the requirements of the Unified Development Ordinance.

- The petition was reviewed by the Technical Advisory Committee at its October 25, 2016, meeting. The petition has been properly noticed for a public hearing at the Advisory Plan Commission's November 9, 2016, meeting.
